THE SHROUD CONSPIRACY

THEY WOULD DO ANYTHING... TO BURY THE TRUTH!

In the darkness of night, two figures quietly infiltrate the Cathedral of Turin, Italy. Working methodically, they position an incendiary device at the historic site of the Shroud of Turin – the alleged burial cloth of Jesus. A mysterious man in dark robes stands outside the building watching. He bows his head to pray. He whispers, "Praise be to God". He waits. Suddenly, a massive explosion lights up the night sky engulfing the Cathedral in flames and destroying the reliquary housing the Holy Shroud.

Ripped from the headlines, *The Shroud Conspiracy*, in the genre of *The Da Vinci Code* and *National Treasure*, takes you on an international journey of murder and intrigue, as the Italian Mafia try to steal the Shroud of Turin in a high stakes game of political conspiracy. At the center of it, a cynical CIA agent and an expert on the Shroud try to stay one-step ahead of The Falcon...the notorious head of the Mafia. As they chase down clues to the authenticity of the Shroud they get closer and closer to the captors, and inadvertently discover that the only way the Shroud could have been created would be a cataclysmic event that would change the world forever.
